Public Notice Number CAD092205889

The California Department of Health Services (DOHS) requests public comment on a CLOSURE PLAN for a Hazardous Waste Management Facility operated by Acrian, Incorporated. The units closing include two elementary neutralization tanks, and a drum storage area. The facility is located at 10131 Bubb Road, Cupertino, California 95014.

The container storage area and one neutralization tank were used to store and treat hazardous wastes associated with wafer fabrication operation. One of the neutralization tanks was used as a neutralization system by previous tenants and was never used by Acrian, Incorporated. The CLOSURE PLAN identifies specific steps which will be followed to permanently close the units to hazardous waste. This Plan is required by Title 22 of the California Administrative Code, Section 67212 and by the regulations adopted pursuant to the Resource Conservation and Recovery Act, 42 USC Section 6901 et. seq.

A copy of the CLOSURE PLAN may be reviewed by contacting Sonia Low at (415) 540-3487 Monday thru Friday 8 am to 5 pm or by writing to:

All comments upon or requests for modification of the CLOSURE PLAN and requests for a public hearing must be sent or delivered in writing to Sonia Low at the above address within 30-days of the date of this notice. An extension of the 30-day comment period may be granted if the request for an extension adequately explains why more time is required to prepare comments.

DOHS shall hold a public hearing if substantial public interest exists or if a request for a public hearing is received. Requests for a public hearing must state the nature of the issues proposed to be raised at the hearing. If a public hearing is to be held, a public notice stating the date, time and place of the hearing will be made at least 30 days prior to the hearing. Any person may provide written or oral statements and data pertaining to this CLOSURE PLAN at the public hearing.

A final decision to approve, modify, or disapprove the plan shall be made after all comments have been considered.
